

DARSHAN AJUDIYA

Python Developer | AI/ML | Backend Development

 darshanajudiya257@gmail.com  Ahmedabad, Gujarat, India  darshan-ajudiya-6b56502b5  darshanajudiya10

SUMMARY

Python Developer with experience in AI/ML and backend development. Skilled in building data-driven applications using Python, Django, and FastAPI. Strong knowledge of machine learning, REST APIs, and scalable backend systems.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript
Frameworks: Django, Flask, FastAPI, Node.js, Express.js
Libraries: Pandas, NumPy, Scikit-learn, TensorFlow
Databases: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, Docker, Postman
Concepts: OOP, REST APIs, Data Structures, Machine Learning

EXPERIENCE

Python Full Stack Developer (Intern)

Brainybeam Technologies Pvt. Ltd.

 Dec 2025 – Present

- Developed full-stack applications using Django and Flask.
- Built REST APIs and backend logic.
- Worked with MySQL and PostgreSQL databases.
- Debugged and optimized performance.

PERSONAL PROJECTS

RAG-Based AI Teaching Assistant

Python, Whisper, RAG, NLP, Vector Embeddings

- Automated 100% video transcription across 3 languages, saving 5+ hours per upload.
- Improved answer relevance by 35% using RAG over course content.
- Achieved sub-second search on 10,000+ chunks, reducing latency by 60%.

Content-Based Movie Recommendation System

Python, Scikit-learn, Cosine Similarity, Pickle

- Recommended movies from 5,000+ dataset using cosine similarity.
- Reduced response time by 70% using serialized models (Pickle).
- Designed modular pipeline (preprocessing, training, inference) for scalability.

EDUCATION

B.Tech in Information Technology

Ganpat University

 2022 – Present

HSC (PCM)

Tapovan Vidhyasankul

 2020 – 2022

CERTIFICATIONS & LANGUAGES

Certifications: The Ultimate Job Ready Data Science Course — CodeWithHarry
Python Machine Learning: Beginner to Pro — CodeWithHarry

Languages: English | Gujarati | Hindi
