Resume

Modern front-end profile

Angular specialist with UI delivery, leadership, and enterprise product experience.

PROFILE

Senior Software Engineer with hands-on Angular experience delivering scalable front-end modules for enterprise products. Strong in reusable UI thinking, reliable execution, and collaborating with teams to ship polished user experiences.

EXPERIENCE

Senior Software Engineer

Aviasole Technologies

Dec 2021 - Mar 2026 | Vadodara, Gujarat

- Led the Angular front-end project and delivered maintainable modules across key product areas.
- Built features using HTML, CSS, JavaScript, and TypeScript with strong focus on clean structure and reuse.
- Worked with Angular Material, Telerik Kendo UI, and ag-Grid for polished, data-rich enterprise interfaces.
- Integrated APIs and collaborated closely with the team to deliver reliable front-end features.
- Developed modules faster and more reliably using recent AI tools to improve delivery quality and speed.
- Applied basic React and Node.js knowledge where useful for supporting front-end and integration work.

Front-End Developer Intern

Kevit Technologies

Feb 2019 - Jul 2019 | Rajkot, Gujarat

- Completed internship work in front-end development, JavaScript chatbot implementation, and Angular project support.

RECOGNITION

- Received the Star Performer Award five times for migrating Salesforce data to Zoho and setting up Microsoft Intune as per client requirements.
- Recognized for redesigning the application as per requirements within timeline and delivering with strong ownership.
- Recognized for successfully leading a project, mentoring team members with proper communication, and working on multiple projects simultaneously.
