

Faraz Qureshi

Senior Angular Developer | MEAN Stack Developer

Phone: +91 6262569072 | Email: farazqureshi2498@gmail.com | Location: Indore, India

PROFILE SUMMARY

Full Stack Developer with **3+ years of experience** building scalable enterprise applications across Banking, SaaS, FinTech, Transportation, Healthcare, and EdTech domains. Strong expertise in **Angular**, **Node.js**, and **MEAN stack** development with hands-on experience in building **high-performance web applications** and **AI-powered solutions**.

- Strong expertise in **Angular (v12–20)**, TypeScript, **RxJS**, **Angular Material**, reusable component architecture, and scalable frontend development.
 - Experienced in developing secure enterprise applications using **JWT Authentication**, Route Guards, **HTTP Interceptors**, and role-based access control.
 - Proven track record of improving application performance by **35%** using optimized Angular techniques such as **OnPush change detection**, **lazy loading**, and **AsyncPipe**.
 - Skilled in designing and developing **REST APIs** and scalable backend systems using **Node.js** and **Express.js**.
 - Experienced in developing **Generative AI** (LLM-based) applications using **OpenAI** and **Gemini APIs** for intelligent automation and business solutions.
 - Skilled in **AI-assisted** development tools and delivering production-ready, high-performance solutions.
-

TECHNICAL SKILLS

- **Frontend:** Angular (v12–20), TypeScript, JavaScript (ES6+), **Next.js**, **Vue.js**, HTML5, CSS3, SCSS, Bootstrap, Tailwind, **Angular Material**
 - **Angular Expertise:** **Reactive Forms**, Standalone Components, Angular Signals, **Lazy Loading**, Route Guards, HTTP Interceptors, **JWT Authentication**, Dynamic Forms, State Management, Dependency Injection, AsyncPipe, **Performance Optimization**
 - **Backend & APIs:** **Node.js**, **Express.js**, **REST APIs**, JWT Authentication, API Design
 - **Database & Cloud:** MongoDB, Firebase Firestore, Cloud Functions
 - **Mobile:** Flutter
 - **DevOps & Tools:** **Docker**, Nginx, **Git**, **GitHub**, Postman, JIRA, Figma, VS Code
 - **AI & Productivity Tools:** Generative AI, **Prompt Engineering**, OpenAI API, Gemini API, **Codex**, **Windsurf**, **ChatGPT**, GitHub Copilot
 - **Other:** Modular Architecture, **Agile/Scrum**, **CI/CD Pipelines**, API Documentation (Swagger/Postman)
-

PROFESSIONAL EXPERIENCE

Procreator: Global UI UX Design Agency | Associate Senior Developer | Dec 2025 – Present

Domain: Artificial Intelligence (Generative AI), SportsTech / EdTech, FinTech

- Developed scalable **Angular** frontend modules for a **FinTech Merchant Loan Platform** with reusable component architecture and optimized performance.
- Implemented responsive **Angular-based user interfaces** with **secure API integrations** and scalable

frontend architecture.

- Improved frontend performance using Angular best practices including reusable components, **lazy loading**, and **optimized state handling**.
- Designed and developed a separate persona-based product marketing platform using **Next.js** with **responsive UI** and **optimized user experience**.
- Designed and deployed **Generative AI** product analysis platforms using Node.js and Express.js integrated with **OpenAI** and **Gemini APIs**.
- Developed **Flutter-based** Sports Academy applications with **Vue.js** admin panel and **Firebase** backend.

Tech Stack: Angular, Next.js, Node.js, Express.js, OpenAI API, Gemini API, Flutter, Firebase, Vue.js

Telemerge IT Services Pvt. Ltd. | Angular Developer | Mar 2025 – Jul 2025

Domain: Banking – Branch Portal Application

- Developed post-login modules in **Angular 20** integrated with secure **banking APIs**.
- Built Deposit and RD workflows with validations and **RxJS-based** calculations.
- Implemented **JWT authentication**, **route guards**, and **interceptors** for secure workflows.
- Improved application performance by **35%** using **OnPush change detection**, lazy loading, and AsyncPipe.

Tech Stack: Angular 20, RxJS, JWT, Angular Material, SCSS

Aliema Infotech | Full Stack Developer | Jun 2023 – Feb 2025

Domain: Transportation, E-commerce, SaaS

- Developed **Transportation Dashboard** with **CRM**, **HR**, **Expenses**, and Transport modules.
- Built **MEAN** stack E-commerce Admin Panel with secure **REST APIs**.
- Implemented **JWT authentication**, **role-based access control**, and API security best practices.
- Improved application performance by **35%** and reduced production bugs using unit testing (Jasmine, Karma).
- Developed multilingual corporate platforms with **responsive UI** and **SEO optimization**.

Tech Stack: Angular, Node.js, Express, MongoDB, GraphQL, Docker, Nginx

Absne Pvt. Ltd. | Front-End Developer | May 2022 – May 2023

Domain: Healthcare, Education (EdTech), Blogging

- Developed **Healthcare Dashboard** applications with **authentication** and **API integrations**.
- Redesigned EdTech platforms and improved user engagement by **30%**.
- Built blogging platforms with admin moderation systems and premium feature modules.
- Developed responsive UI using **Angular Material**, **Bootstrap**, and **SCSS**.
- Collaborated with backend teams for API integration and frontend optimization.

Tech Stack: Angular, Bootstrap, SCSS, Angular Material

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science
Mahakal Institute of Technology, Ujjain
