

KASHYAP SHARMA

Junior Android Developer • Kotlin & XML

kashyapsharma2902@gmail.com | +91 70469 52180 | Kheda, Gujarat | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Android Developer with **1.1 years of hands-on experience** (6-month internship + 7-month full-time) building and shipping production-ready apps on the Google Play Store. Proficient in **Kotlin, XML layouts, MVVM architecture**, Retrofit, Room, and Firebase — with foundational knowledge of Jetpack Compose. Track record of independently developing **5 live Play Store apps**, managing end-to-end release cycles, and integrating AdMob monetization. Passionate about clean code, performance optimization, and delivering polished user experiences.

PROFESSIONAL EXPERIENCE

Junior Android Developer

IQ Infinite Technologies Pvt. Ltd., Ahmedabad | Mar 2025 – Present

- Designed and shipped **5 production Android apps** to the Google Play Store using Kotlin, XML layouts, MVVM, LiveData, Flow, and ViewModel — covering gaming, fintech, and utility categories.
- Integrated REST APIs via **Retrofit** with structured error handling; implemented **Room/SQLite** for offline-first data persistence across multiple apps.
- Managed the full **Play Store release lifecycle** — app signing, staged rollouts, policy compliance, version updates, and crash analysis — maintaining stable app ratings.
- Integrated **Google AdMob** (Banner & Interstitial ads) for app monetization; resolved production crashes and optimized app stability through systematic debugging.
- Collaborated on codebase using **Git/GitHub** with feature branching, code reviews, and structured version control workflows.

MongoDB DBA Intern

Gravitas Technosoft, Ahmedabad | Jan 2024 – Apr 2024

- Migrated large-scale relational SQL databases to MongoDB, ensuring zero data loss and full data integrity throughout the transition.
- Designed and optimized MongoDB schema for query performance; documented migration process and supported team knowledge transfer.

LIVE PLAY STORE APPLICATIONS

Rummy Scorer

Stack: Kotlin, XML, Room, MVVM

Score tracker for Rummy card game with multi-player support, customizable game phases, and per-round history.

Kachful (Judgement Scorer)

Stack: Kotlin, XML, Room, MVVM

Score management app for the Judgement card game; tracks bids, results, and player rankings across rounds.

GoldNest

Stack: Kotlin, XML, Retrofit, MVVM, Firebase

Fintech app for gold investment management — tracks holdings, calculates returns, and provides secure user accounts via Firebase.

EQSR

Stack: Kotlin, XML, Retrofit, MVVM

Client-facing utility app with real-time data fetched via REST APIs, clean XML UI, and optimized performance.

WordPlay

Stack: Kotlin, XML, AdMob, MVVM

Word puzzle game with AdMob monetization (Banner + Interstitial ads), offline gameplay, and smooth animated UI.

TECHNICAL SKILLS

Languages	Kotlin (primary), Java (basic)
UI	XML layouts, Material Design 3, basic Jetpack Compose
Architecture	MVVM, ViewModel, LiveData, StateFlow, Flow
Networking	Retrofit, REST API, JSON parsing, OkHttp
Database	Room, SQLite, Firebase Realtime DB, MongoDB
Tools	Android Studio, Git, GitHub, Play Console, Gradle
AI IDEs	Cursor IDE, Windsurf IDE, Antigravity IDE
AI Prompting	Expert prompt engineering for Claude, Gemini, ChatGPT, Grok (xAI) — crafting precise, context-rich prompts for code generation, debugging & productivity
Monetization	Google AdMob (Banner & Interstitial), Play Store release management

EDUCATION

B.E. in Computer Engineering

Government Engineering College, Modasa | 2024 | CGPA: 7.41 / 10

Higher Secondary (XII)

Shri H & D Parekh High School, Kheda | GSHEB | 2020 | 62.83%

CERTIFICATIONS

BAPS Youth Fellowship Programme — Yuva Talim Kendra

Jun 2024 – Nov 2024 | Completed a structured leadership and personal development programme focused on discipline, ethical decision-making, communication, and community service.

CORE STRENGTHS

Problem-Solving & Logical Thinking • Strong Debugging Skills • Clean Code Practices • Self-Motivated Learner • Collaborative Team Player
