SUMMARY

Full Stack Developer and UI/UX Designer with close to 2 years of production experience building AI-integrated, performance-optimized web apps using the MERN stack. Experienced in transforming Figma designs into production-ready React components while optimizing performance, accessibility, and Core Web Vitals. Skilled in MERN stack development, AI API integrations, and modern frontend frameworks. Recognized among the **Top 10 teams out of 600+ participants at a national hackathon** for building innovative AI-driven solutions.

PROFESSIONAL EXPERIENCE

- Apr 2025 – present **Full Stack Developer**, Corenest Tech LLP 
- Developed and maintained **MERN stack applications (React.js, Node.js, Express, MongoDB)** delivering scalable production features.
 - Redesigned form UX and validation logic, improving input structure and submission flows to **increase completion rates**.
 - Improved frontend performance using **lazy loading, code splitting, and memoization**, reducing page load time by **up to 25%** and improving Core Web Vitals.
 - Integrated **AI APIs, payment gateways, and secure authentication (JWT)** in production applications deployed on **Azure VM with Nginx**.
- Oct 2024 – Apr 2025 **Full Stack Developer Intern**, Corenest Tech LLP 
- Built responsive UI interfaces using **React.js, Tailwind CSS, and SCSS** with consistent UX across mobile, tablet, and desktop.
 - Developed and integrated **REST APIs and backend services** using **Node.js and Express.js**.
 - Configured **Azure VM deployment and Nginx configuration**, supporting stable releases and improved application performance.

PROJECTS

- ResearchPro** , React.js · Node.js · Express.js · MongoDB · JWT · PayPal · EmailUS
- Built a **full-stack course platform** featuring progressive video unlock logic, secure **PayPal payment integration**, and **JWT-based authentication** for protected content access.
 - Implemented **automated 45-day account lifecycle management and email workflows** using EmailUS, enabling structured course access and automated user management.
- Supremewriter.pro** — **AI Writing Assistant**, React.js · Node.js · Azure OpenAI
- Built an **AI-powered writing assistant** using Azure OpenAI with a freemium UX model that captures user email before generating outputs.
 - Implemented **per-device access restrictions** to block repeat free usage and push users toward paid conversion.
- Intern Training App** — **Internal Onboarding Platform** , React.js · Node.js · Express.js · MongoDB
- Developed an **internal onboarding system** with admin dashboard, automated credential generation, and task submission workflows to automate intern onboarding.
 - Integrated **private YouTube learning modules, progress tracking, and structured learning flows** to improve onboarding efficiency.
- Coca-Cola Website Redesign** — **Interactive Frontend Experience** , React.js · GSAP · JavaScript · Performance Optimization
- Designed and developed a **GSAP-powered interactive website redesign** focused on modern UI interactions and mobile-first responsiveness.
 - Optimized asset delivery and rendering performance, reducing page load time by **25% and improving Lighthouse scores**.

EDUCATION

- Sep 2020 – Sep 2023 **Bachelor of Business Administration**, GS College of Commerce & Economics 
- Oct 2024 – Jun 2025 **MERN Stack Web Development Certification**, Sheryians Coding School 
- Aug 2025 – Oct 2025 **Google UX Design Certification**, Coursera 

SKILLS

Frontend : React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, SCSS, Redux, Context API, GSAP, Framer Motion, Vite, Responsive Web Design, Component-Driven Architecture, Performance Optimization

Backend : Node.js, Express.js, MongoDB, REST APIs, API Integration, JWT Authentication, Firebase, Multer.js, Nodemailer, EmailUS

UI/UX : Figma, Wireframing, Prototyping, User Research, Design Systems, Component Libraries, Accessibility (WCAG)

Tools : Git, GitHub, Postman, Lighthouse, Vercel, Azure Virtual Machines, Nginx, Azure OpenAI, AI API Integration, Core Web Vitals
