📍 ahmedabd, AHMEDABAD, GUJARAT, 380060

Summary

Experienced Flutter Developer with 3+ years of expertise in designing and developing cross-platform mobile applications. Proficient in Flutter, Dart, API integration, and implementing responsive UI with a focus on performance and code quality.

Education

MCA

GLS University, GLS University

Mar 2022

AHMEDABAD, GUJARAT

Skills

Programming Languages

- Dart (Primary language for Flutter development)
- Java (Basic/Intermediate – Android development)

Flutter

- Cross-platform Mobile Development
- UI/UX Implementation
- Responsive Design (Mobile & Tablet)
- API Integration
- REST API Integration
- JSON Data Handling
- Firebase Integration (Auth, Firestore, FCM)
- Local Storage (SharedPreferences / GetStorage)

Experience

Flutter Developer

Diyan Technologies

Dec 2022 - Mar 2023

AHMEDABAD, GUJARAT

Flutter Developer

Bizople Solutions Pvt. Ltd

Apr 2023 - Present

AHMEDABAD, GUJARAT

Projects

- 1.Developed cross-platform mobile applications using Flutter, including WebView-based solutions with secure multi-user authentication and robust session management.
- 2.Engineered event booking and ticketing applications featuring interactive seat selection, real-time availability, and seamless backend API integration.
- 3.Designed and implemented scalable eCommerce mobile applications with dynamic product listings, cart management, and optimized checkout workflows.
- 4.Built CRM and field service management applications enabling efficient customer management, lead tracking, task assignment, and real-time scheduling for field operations.
- 5.Developed food delivery applications with restaurant discovery, menu browsing, order placement, and live order tracking functionalities.
- 6.Implemented advanced inventory management systems supporting product tracking, stock control, and real-time warehouse data synchronization.
- 7.Developed a field task management application for service teams, including task assignment, status tracking, technician workflows, and real-time updates to improve operational efficiency.
- 8.Implemented Firebase services, including push notifications (FCM), and integrated Google Sign-In and Apple Login for secure authentication. Utilized local storage solutions (SharedPreferences, GetStorage, SQLite) and applied effective state management and API integration techniques to deliver high-performance, user-centric mobile applications.
