WORK EXPERIENCE

WebVoltz

Apr 2023 - Present

- Architected and developed scalable full-stack applications using the MERN stack, handling complex business logic and high-volume data workflows.
- Built reusable and modular component libraries using React.js, Tailwind CSS, Ant Design, Material UI, and ShadCN UI, improving development efficiency and UI consistency. Led a team in successfully delivering a complex engineering project on time and within allocated budget.
- Optimized frontend performance using lazy loading, code splitting, memoization, and efficient state management techniques, significantly improving application responsiveness.
- Worked closely with product managers and UI/UX designers to translate business requirements into high-quality, production-ready features.
- Contributed to application scalability and maintainability by refactoring legacy codebases into reusable and performance-oriented modules.

WebVoltz (Formaly Kamaldhari)
