Summary

Frontend Developer with 3+ years of experience in building scalable web applications using Angular, TypeScript, RxJS, and NgRx. Hands-on experience with full-stack development using NestJS and MySQL. Skilled in creating user-focused, responsive, and high-performance applications.

Technical Skills

- Frontend: *Angular (up to v20), TypeScript, JavaScript, RxJS, NgRx, HTML5, CSS3, Tailwind, Bootstrap, Websockets, Authentication, Authorization, Shimmer.*
- Backend: *NestJS, Node.js.*

Education

Er Perumal Manimekalai College Of Engineering Koneripalli Hosur, Anna University, Chennai, MCA June 2018 – Sept 2020

- CGPA: 83.38
- **Coursework:** Computer Applications

St. Joseph College Of Arts And Science For Women, Salem, BCA June 2015 – Sept 2018

- CGPA: 70
- **Coursework:** Computer Applications

Government Higher Secondary School Belagondapalli, MPCC June 2013 – Sept 2015

- CGPA: 54.6
- **Coursework:** Computer Science

Experience

Junior Software Engineer, Jesperapps Software Services Private Limited – Hosur Nov 2023 – Feb 2026

- Built and maintained Angular web applications with responsive UI using Angular, TypeScript, Bootstrap.
- Collaborate with back-end developers, designers, and stakeholders to deliver high-quality features. Optimize application performance and ensure cross-browser compatibility. Maintain clean, reusable, and scalable code following best practices.
- Collaborated with team members to design, develop and implement software solutions. Debugged programs providing an error-free end product.

Software Developer, Getster Tech Pvt Ltd – Hosur March 2022 – Nov 2023

Worked on both front-end and back-end development of web applications using Angular, NestJS, MySQL, and Tailwind CSS.

Designed and developed scalable APIs and integrated them with dynamic front-end interfaces.

- Implemented responsive and modern UI components with Tailwind CSS for enhanced user experience.
- Managed database design, queries, and optimization using MySQL to ensure efficient data handling.
- Developed functional web and mobile applications through clean, robust code. Facilitated communication between team members ensuring smooth workflow. Identified technical issues according to design requirements and tested solutions.

Software Developer Intern, Getster Tech Pvt Ltd – Hosur Nov 2021 – March 2022

- Handled both frontend and backend development during the internship, building applications with Angular and NestJS.

HRO Executive, RS HR Team Solutions Pvt Ltd(Flipkart) – Hosur

Aug 2021 – Nov 2021

Coordinate with delivery executives to collect documents on time. Verify and organize collected documents for accuracy and completeness. Share scanned/soft copies of documents with the Head Office via email. Maintain proper records of all collected and shared documents.

Customer Care Executive, Allsec Technologies Pvt Ltd – Bangalore

Oct 2020 – Jan 2021

Contact customers via phone to remind and request repayment of outstanding credit card dues. Provide payment details and assist customers with repayment options. Maintain records of calls and customer responses for follow-up.

Projects

AVIZ

2025 - 2026

- Airport trip monitoring application enabling real-time communication between operators and brokers using WebSockets, with chat, notifications, and responsive UI built using Angular and Bootstrap.
- Tools Used: Angular, WebSockets, Bootstrap, Shimmer UI, REST APIs.

HRMS

2024 - 2025

- Developed and managed multiple HRMS modules including Core HR, Recruitment, Payroll, Leave, Time Attendance, PMS, Project Management, and Expense Reimbursement to streamline employee and organizational processes. Each module was designed to automate HR operations — from employee onboarding, attendance, and payroll to performance evaluation, project tracking, and expense management.
- Tools Used: Angular, Bootstrap, Typescript,JavaScript.

Printlok

2024

- The purpose of this application is to track employee locations, attendance, shifts, overtime (OT), and mark geofences for specific clients.
- Tools Used: Angular,Google Maps,Google API key ,Bootstrap, Typescript,JavaScript.

Project Management

2023

- The main goal of this app is to keep track of projects, clients, and employees in the organization. It helps monitor employee work and hours, see which employee is working on which project and task, submit meeting notes, check if employees have updated their daily work status, and manage project approvers for easier management.
- Tools Used: Angular ,Bootstrap, Typescript,JavaScript.

Empty Bags Packing App

2022

- I worked on ngx-scanner-qrcode, utilizing it to scan QR codes on the client side using Angular and on the server side using Nestjs.
- Tools Used: Angular ,Tailwind css, Nestjs, MYSQL,Typescript,JavaScript.

Steel Weight Calculator App

2022

- In the client app using Angular, I have integrated KaTeX to write math equations and ngx-mask to utilize the required pattern.
- Tools Used: Angular ,Tailwindcss, Typescript,JavaScript.

Technologies

Languages: Typescript, JavaScript,SQL

Technologies: Angular, Nestjs, MySQL,Git, Github,Gitlab, Bitbucket, GraphQL, Bootstrap,Tailwindcss, Saas,Google Apis,Vercel,Firebase,NGRX,RXJS, Websocket, Shimmer,Authentication,Authorization,Jenkins,CI/CD.
