

KEVAL KHETANI

Software Engineer · Full Stack · SaaS · Cloud

Gandhinagar, Gujarat | +91 91733 81643 | kevalkhetani15@gmail.com

SUMMARY

MERN Stack Developer with 2+ years of experience building scalable web applications, e-commerce platforms, and SaaS products. Skilled in SQL, MongoDB, Express.js, React.js, Node.js, TypeScript, REST APIs, and cloud-based development. Experienced in Agile environments, cross-functional collaboration, and delivering production-ready solutions with clean and efficient code.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java

Frontend: React.js, Next.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Material-UI, Responsive Design

Backend: Node.js, Express.js, NestJS, REST APIs, GraphQL, JWT, Socket.IO

Databases: MongoDB, PostgreSQL, MySQL, Prisma ORM

DevOps & Cloud: AWS (EC2, S3, RDS, VPC, Amplify), Docker, Nginx, Git, CICD

PROFESSIONAL EXPERIENCE

Software Engineer | Variance InfoTech Pvt Ltd

May 2025 – Present

Ahmedabad, Gujarat

- Developed an omnichannel CRM platform in a production SaaS environment, unifying WhatsApp, email, and messaging into a single real-time inbox using Node.js and Socket.IO; reliably handles 500+ concurrent users with live notifications.
- Implemented role-based access control (RBAC) using JWT authentication and OAuth 2.0, reducing unauthorized access attempts — applying object-oriented design principles throughout the security layer.
- Optimized RESTful APIs built with Node.js and Express.js by introducing Redis caching and targeted query-level improvements, resulting in 40% faster average response times; contributed to API documentation for cross-functional teams.
- Designed PostgreSQL database schemas with strategic indexing to support high-throughput transaction processing — currently handling 10,000+ daily transactions.
- Built a full employee management module in an Agile/Scrum team covering attendance tracking, leave request workflows, and automated payroll calculations; received hands-on code review feedback from senior engineers and iterated rapidly.

Software Engineer | InfoElegant Solutions Pvt. Ltd.

April 2024 – May 2025

Gandhinagar, Gujarat

- Developed and maintained fintech, SaaS, and enterprise web applications using Next.js, NestJS, and PostgreSQL.
- Built scalable RESTful APIs, authentication systems, and dashboard features for multi-tenant platforms.
- Worked on e-commerce, analytics, and management systems with responsive and user-friendly interfaces.
- Improved application performance and optimized database queries for better scalability and user experience.

- Managed deployments and server configurations using AWS, Docker, Nginx, and CI/CD pipelines.
- Collaborated with cross-functional teams in an Agile environment to deliver production-ready solutions.

KEY PROJECTS

Krambica.com | Next.js · Node.js · TypeScript · AWS · Razorpay · PWA

- Full-stack e-commerce platform built on cloud infrastructure with product catalog, cart, multi-step checkout, admin panel, and inventory system with automated low-stock alerts — designed with object-oriented programming principles.
- Built a dynamic coupon engine with RESTful API integrations and Razorpay payment gateway; deployed on AWS EC2 with auto-scaling and CloudWatch monitoring, load-tested to support 500+ concurrent users.
- Implemented Progressive Web App (PWA) support for offline functionality and mobile-app-like experience in a SaaS environment;

Egleio — Employee Management System | Confidential | In Production

- Internal HR and access management system for Blueworker Security Company built with secure role-based controls following OOP design patterns; currently in active production use with cross-functional stakeholder collaboration.

EDUCATION

Master of Computer Application (MCA) Kadi Sarva Vishwavidyalaya, Gandhinagar CGPA: 7.78 / 10.0	2022 – 2024
Bachelor of Computer Application (BCA) Kamani Science College, Amreli Saurashtra University 68%	2019 – 2022
