Professional Profile

Flutter Engineer with over three years of experience developing scalable mobile and web applications. Proven track record of driving user growth, improving application performance, and reducing defects through the adoption of clean architecture and structured state management approaches such as BLoC. Skilled in implementing CI/CD pipelines, conducting performance profiling, and integrating Flutter applications with Odoo backends to deliver robust and efficient solutions.

Core Competencies

- **Mobile Development:** Flutter, Dart, BLoC, Provider, Clean Architecture, REST APIs, Firebase
- **Web Development:** Node.js, Flask, Django, HTML, CSS, JavaScript, React
- **Database & Backend:** Node.js, Django, Flask, Odoo, PostgreSQL, MySQL, SQLite, GraphQL
- **DevOps & Testing:** Git, CI/CD (GitHub Actions), Unit Testing, Widget Testing, Agile/Scrum
- **Tools & Platforms:** Android Studio, VS Code, Figma, Framer, Google Play Console, Azure
- **Soft Skills:** Problem-solving, Team Collaboration, Code Review, Mentorship, Time Management, Patience, Adaptability

Professional Experience

Flutter Developer

Thallaja FZE, Dubai, UAE | October 2025 – Present

- Launched the Thallaja marketplace app, increasing seller registrations by 20% within 3 months.
- Integrated Odoo APIs, reducing data-sync latency by 15%.
- Refactored legacy modules, decreasing bug reports 30% in Q1 and improving crash-free sessions to 98%.
- Implemented structured BLoC state management to improve maintainability and onboarding efficiency.

Flutter Developer

Codex Information Technology, Dubai, UAE | August 2024 – September 2025

- Delivered production-grade Flutter applications integrated with Odoo backend systems.
- Optimized API handling and caching, improving app response time by 18%.
- Participated in Agile sprint planning, reviews, and pull-request code reviews.

Flutter Developer Trainee

Codex Information Technology, Dubai, UAE | July 2024

- Built internal demo modules integrating Flutter with Odoo REST APIs.
- Assisted in debugging production issues and documenting integration workflows.

Web-App Developer

Riss Technologies, Calicut, Kerala, India | June 2022 – May 2024

- Developed Django/Flask web applications.
- Mentored 90+ students in full-stack development; 85% secured technical roles.
- Mentored students in full-stack development.
- Designed responsive UIs, improving user feedback scores by 40%.

Key Projects:

- [Thallaja](#): Cold storage marketplace platform (Flutter + Odoo)
- **VanEx**: Van sales management system
- **EmpEx**: Employee self-service platform
- **Basari Price Checker**: Android price-checker application

Education

Bachelor of Computer Applications (June 2019 – April 2022)
University of Calicut
